

RAMBOLL SELECTED REFERENCES

Selected References New Waste-to-Energy Facilities and Units

Client/ location	Country	Project	Capacity tpa	Ramboll's main responsibilities	Year
National Environment Agency	Singapore	Planning of WtE Facility	2,500,000	Technical assistance to team of advisors. Planning and development of synergies between a wastewater treatment facility and waste-to-energy facility. Preliminary design, tender specifications and owners engineer for WtE, sludge incineration, food waste pre-processing and recycling sorting.	2014-2030
North London Waste Authority (NLWA), NEW	UK	New WtE facility, London	700,000	Technical advisor and owner's engineer for the procurement and initial operation of a new two line facility. Work includes initial engineering studies and design development, leading to production of technical specifications and support through the selected procurement process.	2009-2025
Aberdeen City Council	UK	New WtE facility, Aberdeen	150,000	Authority's Technical Advisor. Providing technical advice to the Joint Authorities in their development and delivery of a waste to energy plant.	2016-2022
FCC, Zero Waste, Edinburgh & Midlothian Residual Waste Treatment	UK	Green-field WtE facility	150,000	Technical Advisor to FCC Environment during the preparation and closure of WtE PFI (DBFO) contract. Ramboll work included bid support, supporting FCC with the development of technical specifications, Review of EPC proposals and supporting EPC contract negotiations,	2013-2021
LKS Ingeniurs S. Coop, Arrasate, Mondragon	Spain	New WtE facility, San Sebastian	200.000	New WtE facility, San Sebastian, with two oven lines. As owners engineer responsible for the full Waste-to-Energy scope: review of final layout, review of detailed design, risk assessment, factory acceptance tests and inspections during site acceptance tests and trial operation and performance test.	2017-2020
Phoenix Energy, Perth	Australia	New WtE facility, Perth	400,000	Technical Advisor including review of EPC contractor's proposal. Owner's Engineer	2015-2019

Selected References New Waste-to-Energy Facilities and Units

Client/ location	Country	Project	Capacity tpa	Ramboll's main responsibilities	Year
Dial-A-Dump, Sydney	Australia	New WtE facility, Sydney	1,100,000	Dial-A-Dump-Industries are building Australia's first waste-to-energy facility in Eastern Creek, Sydney, New South Wales. The facility will recover resources and energy from commercial, industrial, construction and demolition waste. Furthermore, the facility will significantly reduce the amount of waste taken to landfill, hence reducing the emission of landfill gases. Technical Advisor including review of EPC contractor's proposal. Owner's Engineer. Input and assistance to Environmental Impact Statement.	2015-2019
Urbaser S.A. Gloucestershire	UK	New WtE facility, Gloucestershire	185,000	Technical advisor to Urbaser during the preparation and closure of a WTE PFI (DBFO) contract including bid support, preparation of technical specifications, support in the contracting of suppliers, project management, advisor in the manufacturing and construction phase and the test and commissioning phase.	2009-2019
Dansk Retursystem A/S	Denmark	Machinery tender	-	EPCM contractor	2017-2018
Cenviro	Malaysia	New Hazardous Waste Treatment Facility, Johor	20.000	Owners engineer for tendering of a new hazardous waste incinerator to treat hazardous waste from origin of Johor	2017-2018
Hyundai-HEC Joint Venture	Singapore	Steam performance test at Sakra WtE	-	Testing steam production at Sakra WtE	2017-2018
Bionaturgas Nordfyn A/S	Denmark	New Biogas Facility	315,000	Owners engineer. Technical assistance. Preparation of tender documents. Design review. Supervision of Mechanical, Electrical, CMS and Civil works during establishment and post construction. Review of korrosion damages on concrete tanks. Review of biogas upgrading process.	2014-2018
Bionaturgas Midtfyn A/S	Denmark	New Biogas Facility	365,000	Owners engineer. Technical assistance. Preparation of tender documents. Design review. Supervision of Mechanical, Electrical, CMS and Civil works during establishment and post construction. Review of korrosion damages on concrete tanks. Review of biogas upgrading process.	2014-2018

Ethiopian Electric Power, Addis Ababa	Ethiopia	Green-field WtE facility	400,000	Owner's engineer, design review and supervision, site supervision, quality control and FAT supervision, contract management	2014-2018
Beirut Municipality	Lebanon	New Waste to Energy facility	350,000	Tender documents, project definition and tender procedure	2017-2018
CDR, Beirut	Lebanon	Green-field WtE Facility	670,000	Feasibility Study, Preparation of pre-qualification documents and tender documents for solid waste management in Lebanon	2012-2018
Amager Ressource Center	Denmark	Green-field WtE facility (CHP)	560,000	Project analysis and planning, conceptual design, management of the procurement process, preparation of tender documents, bid evaluation, contract negotiations, project/contract management, supervision and commissioning.	2009-2018
CNIM, GIC and AMG, Kabd WtE	Kuwait	Green field waste treatment plant		Lender's supervisor/independent certifier	2017
Tønder Biogasanlæg	Denmark	Project management	930,000	Coordination of design team, quality assurance, CE-approval, risk assessment, authority liaison	2015-2017
Bionaturgas Videbæk A/S	Denmark	Technical supervision of construction of biogas plant		Owners engineer. Technical assistance. Preparation of tender documents. Design review. Supervision of Mechanical, Electrical, CMS and Civil works during establishment and post construction.	2017
Bionaturgas Korskro A/S	Denmark	Supervision		Owners engineer. Technical assistance. Preparation of tender documents. Design review. Supervision of Mechanical, Electrical, CMS and Civil works during establishment and post construction.	2017
Bionaturgas Holsted A/S	Denmark	New biogas facility.	395,000	Owners engineer. Technical assistance. Preparation of tender documents. Design review. Supervision of Mechanical, Electrical, CMS and Civil works during establishment and post construction. Review of korrosion damages on concrete tanks. Review of biogas upgrading process.	2014-2017
ISVAG, Antwerp	Belgium	Green-field WtE facility (CHP)	200,000	Technical Advisor. Conceptual design, basic design and preparation of tender documents.	2016-2017
Masdar, Bee'ah, Sharjah	United Arab Emirates	Green-field WtE facility	300,000	Project analysis and planning, conceptual design, preparation of tender documents, bid evaluation, contract negotiations	2016-2017

Renergia, Lucerne	Switzerland	Green-field WtE facility	2x100,000	EPCM contractor (Owner's Engineer) / Technical Advisor, project planning, conceptual design, tendering, procurement, project/contract management, supervision, commissioning	2011-2017
Biogas Facility, Singapore	Singapore	Technical Review of green field AD/Biogas Facility	163,000	Technical review of design and supervision of construction for new biogas facility based on anaerobic digestion of chicken litter	2015-2017
I/S Norfors, Hørsholm	Denmark	New WtE line 5 replacing the three existing lines	96,000	Ramboll was the consultant of Norfors for the planning and implementation of a new oven line. The new line was commissioned in 2016. Clients main advisor. Financial follow up on complete project, follow up and coordination of civil engineering advisors. Technical advisor. Project planning and definition, conceptual design, tendering, procurement, project/contract management, supervision, commissioning, warranty period. Site management. HSE management.	2008-2017
Be'ah, Muscat	Oman	Green-field WtE facility	660,000	Technical Advisor. Feasibility study and conceptual development of WtE facility.	2015-2016
Alarko-Cengiz JV, Istanbul	Turkey	Bid support	730,000	Technical assistance to the EPC contractor during the bid phase. Review of subcontractors design, layout coordination and basic design of balance of plant.	2016
Cenviro	Malaysia	Green-field WtE facility	350,000	Project Definition Brief and feasibility, Pre-qualification, Tender Specifications and Tendering	2015-2016
Korskro Biogas A/S	Denmark	Bid support, biogas facility	750,000	Technical Advisor	2016
Hertfordshire County Council	UK	Green-field residual waste treatment facility including WTE.	345,000	Technical advisor. Procurement and supervision of PFI contract for the design, build, finance and operation of the new facility.	2009-2015
Cypark Resources Berhad, Kuala Lumpur	Malaysia	Green-field Waste Segregation Facility and AD Facility	300,000	Analysis of potential technical solutions.	2013-2015
Cypark Resources Berhad, Kuala Lumpur	Malaysia	Green-field WtE Facility	200	Analysis of Cost and Benefit in regard to investment and OM cost establishing new solutions.	2013-2015
